Wishlist: Overview

1 Introduction

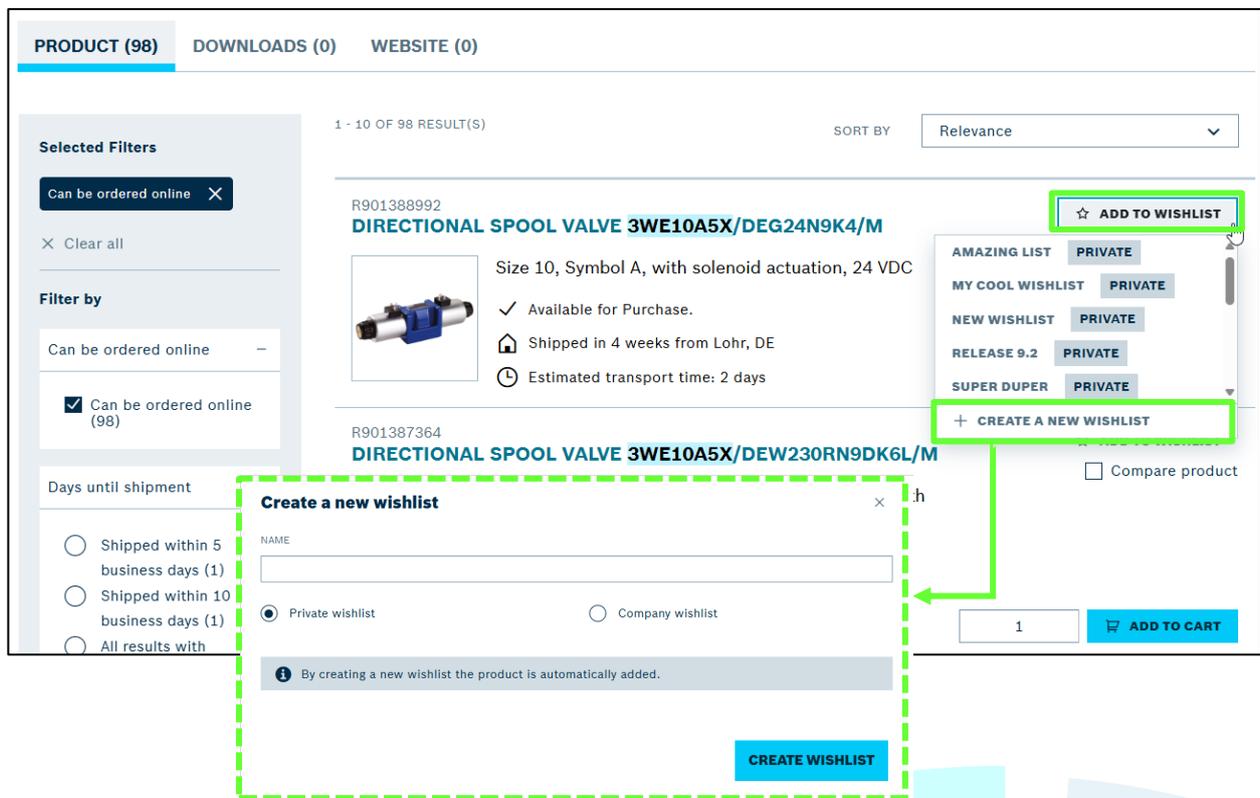

Logged-in users have the ability to create Wishlists. Wishlists are collections of products that can be easily transferred to the cart at a later time. The Wishlist feature in the Bosch Rexroth Store offers a convenient way to save products for future purchases or consideration. Users can easily add or remove products to organize their lists. Wishlists are accessible anytime through the user account or the homepage, facilitating purchase planning. Additionally, lists can be shared with other users within the company to support team collaboration (available only for customers with direct account access).

2 Creating Wishlists

There are several ways to create a new Wishlists.

2.1 Through Product Pages

The Rexroth Store provides a convenient way to add favorite products to your existing Wishlist via the **'ADD TO WISHLIST'** button, located **on the Product Page**. If a new Wishlist is desired, select the **'+ CREATE NEW WISHLIST'** button at the bottom. Creating a new list requires providing a name, which can be edited later. Full Users have the additional option to designate a Wishlist as either private (visible only to the creator) or as a company-wide Wishlist, enabling collaboration with other users within the same company.

Wishlist: Overview

2.2 Through the User Menu

Alternatively, a **Wishlist overview** can be accessed via the user menu, which also contains a **button to create a new list**.

In this way, in addition to the Wishlist name and type, a description can also be added to the Wishlist.

The image shows a sequence of three screenshots illustrating the process of creating a wishlist from the user menu. The first screenshot shows the user menu with 'My Wishlists' highlighted. The second screenshot shows the 'My Wishlists' page with a 'CREATE WISHLIST' button highlighted. The third screenshot shows the 'Create a new wishlist' modal form with fields for 'NAME', 'DESCRIPTION', and radio buttons for 'Private wishlist' and 'Company wishlist'.

2.3 Save Cart as a Wishlist

The entire cart can be saved as a Wishlist using the '**CREATE WISHLIST**' button. This transfers all products in the cart, including configuration data, to a new Wishlist. Please note that the quantity per product in the Wishlist can only be saved after a prior cart simulation or update. The '**CREATE WISHLIST**' button is available at both the top and bottom of the page, eliminating the need to scroll up or down to create your Wishlist.

In this step, it is also necessary to provide a name for the Wishlist and specify the list type (private Wishlist or company Wishlist) before saving.

The image shows a sequence of three screenshots illustrating the process of saving the shopping cart as a wishlist. The first screenshot shows the 'My shopping cart' page with 'CREATE WISHLIST' buttons highlighted at the top and bottom. The second screenshot shows the 'Create a new wishlist' modal form with fields for 'NAME', 'DESCRIPTION', and radio buttons for 'Private wishlist' and 'Company wishlist'.

Wishlist: Overview

3 Wishlist Management

3.1 Wishlist User Interface

The Wishlist overview also provides the ability to **duplicate, edit, or delete existing Wishlist**. The name, description, and type (private or company list) of a wishlist can be edited.

The overview can also be filtered **by private and company Wishlists** using the display menu at the top.

Furthermore, the **creation date** of the Wishlist is displayed, as well as the type of Wishlist (**private or company**).

Name	Creation Date	
IMPORTANT COMPANY	17.06.2025	CLONE EDIT DELETE
TEST PRIVATE	02.04.2024	CLONE EDIT DELETE
TEST 2 PRIVATE	02.04.2024	CLONE EDIT DELETE
TESTTTT PRIVATE	02.04.2024	CLONE EDIT DELETE

Private Wishlist: Visible only to the user who created it.

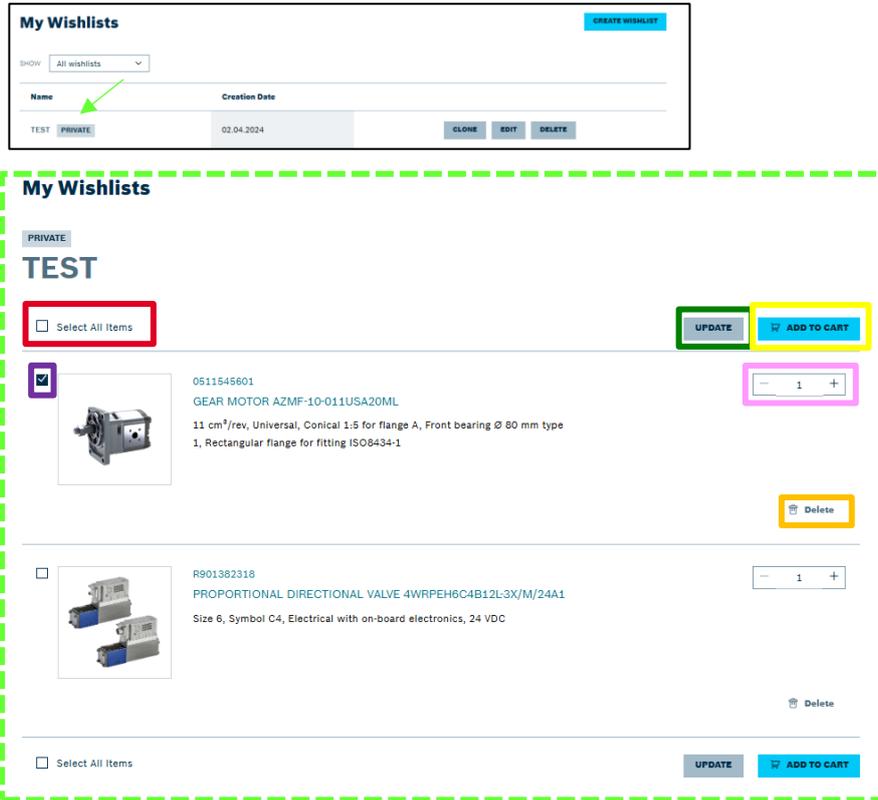

Company Wishlist: Wishlist can be shared with multiple users within the same company (based on customer number).

Please note that changes to company Wishlist affect all users within the company. Also, the Wishlist function is only available to logged-in users with direct customer access.

Wishlist: Overview

3.2 Add Wishlist Products to Cart

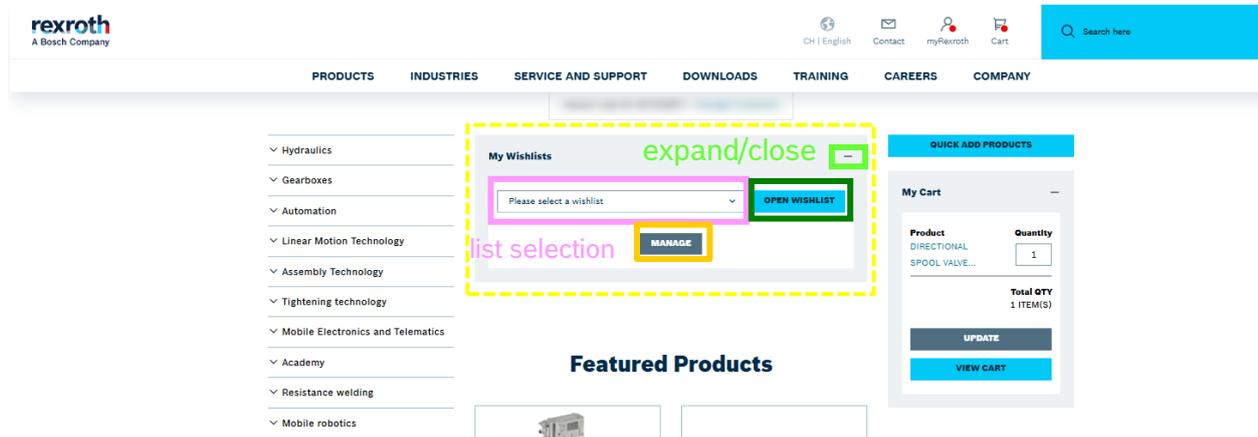

Selecting the name of a Wishlist (as shown here with 'TEST') opens the list, where individual products can be **removed**, **quantities adjusted**, or the configuration edited if necessary. The option to select all items and transfer **the entire list to the cart** is also available. Alternatively, individual products **can be added to the cart** by checking the **corresponding boxes**, if the entire list is not desired.

Wishlist: Overview

3.3 Wishlist Display on the Home Page

Once an initial Wishlist is created, a new section displaying wishlists will appear on the Rexroth Store homepage. The Wishlists can be viewed via the **list selection** menu, and a desired Wishlist can be opened directly using the **'OPEN WISHLIST'** button. The **'MANAGE'** button provides direct access to the complete overview of all wishlists. The Wishlist section can be **collapsed or expanded for improved clarity**.
