

**TAKE YOUR DRIVE
PERFORMANCE
TO THE NEXT
LEVEL**

**GAIN ACCESS TO
HIGH PERFORMANCE
AND LONGER LIFETIME**

The perfect opportunity to upgrade to the latest technology

Our Håggund's hydraulic motors are known for their reliable performance and long service life, but they're also continuously developed. The time has come to say good-bye to the Marathon motors and welcome the new and improved Håggund's motors.

Håggund's have introduced a new generation motors with the Håggund's CA, CB and CBm series that can smoothly replace the old and obsolete Marathon motors. With a smooth upgrade for your application, we've made it easy to make the switch with a plug and play solution.

We as the original manufacturer can support you with the mechanical and hydraulic modifications needed to mount the new generation motors.

ADVANTAGES OF THE NEXT GENERATION HÄGGLUNDS MOTORS FOR YOUR APPLICATION DRIVE

- New generation motors replace obsolete ones with the latest technology.
- New possibilities to optimize productivity.
- Attractive pricing to retrofit to latest technology.
- Extended service life.
- Possibility to get extended warranty if the installation is made by authorized Håggund's service experts.
- The option to add predictive maintenance with Håggund's CMP.

Get the most out of your drive solution
