Hägglunds drives promise mining productivity – and new possibilities

Mike Thompson | 03/24/2023 | USA | HD23002

Hägglunds will exhibit its full range of industry-leading direct drive hydraulic motors, products and services in booth 2043 at MINEXCHANGE 2023, Feb. 26–March 1, in Denver, CO.

Compact, gearless and utterly reliable, they offer significant advantages over their electromechanical counterparts. Those advantages continue to grow stronger, and the range of possibilities they create is set to expand.

In many ways, mining applications are an ideal showcase for hydraulic drive strengths. Few other industries expose drive systems to such harsh and unpredictable conditions – or demand as much control over torque and speed. Hägglunds drive systems take both challenges in stride, allowing mines to secure equipment uptime and significantly boost their productivity.

Basic Information Bosch Rexroth

As one of the world's leading suppliers of drive and control technologies, Bosch Rexroth ensures efficient, powerful and safe movement in machines and systems of any size. The company bundles global application experience in the market segments of Mobile Applications, Machinery Applications and Engineering, and Factory Automation. With its intelligent components, customized system solutions and services, Bosch Rexroth is creating the necessary environment for fully connected applications. Bosch Rexroth offers its customers hydraulics, electric drive and control technology, gear technology and linear motion and assembly technology, including software and interfaces to the Internet of Things. With locations in over 80 countries, more than 31,000 associates generated sales revenue of around 6.2 billion euros in 2021.

Basic Information Bosch

The Bosch Group is a leading global supplier of technology and services. It employs roughly 402,600 associates worldwide (as of December 31, 2021). The company generated sales of 78.7 billion euros in 2021. Its operations are divided into four business sectors: Mobility Solutions, Industrial Technology, Consumer Goods, and Energy and Building Technology. As a leading IoT provider, Bosch offers innovative solutions for smart homes, Industry 4.0, and connected mobility. Bosch is pursuing a vision of mobility that is sustainable, safe, and exciting. It uses its
