

## Electrified Mobile Product & Application Conference

### Informative Overview

**Dallas, TX**

#### Location & Date

**Date:** May 10-12, 2022  
**Location:** Renaissance Dallas North Hotel  
1590 Lyndon B Johnson Freeway  
Farmers Branch, TX 75234  
**Reservation Rate Closes: April 11<sup>th</sup>**

#### General Schedule:

**May 10:** 6:00 pm–8:30 pm | Reception & Showcase  
**May 11:** 9:00 am–10:00 pm | Conference & Dinner  
**May 12:** 8:30 am–12:00 pm | Conference & Lunch

#### Registration Link (Invitation only)

[www.boschrexroth-us.com/empac-dallas](http://www.boschrexroth-us.com/empac-dallas)

#### Tuesday, May 10 – Overview

- 6:00 pm–8:30 pm | Welcome Reception with Product Showcase
- Drinks & heavy Hors d'oeuvre's

#### Wednesday, May 11 – Overview

##### Conference | 9:00 am–5:00 pm with Lunch

- **Tough Performance & Easy Handling:** The future of automation in mobile machinery with operator assistance building blocks.
- **Everything Under Control:** Innovations in human machine interfaces to provide increased controllability & ergonomics.
- **Full Force. Zero Emissions.:** Machine system architecture options incorporating the electrification of Mobile Machinery.
- **Handling new challenges:** Disconnecting drive torque from engine speed via innovative solutions provides increased response and efficiently gains.
- **Simple but powerful:** via electrification, simplified cost effect traction control provides

#### Wednesday, May 11 – Overview (continued)

- **Speed or torque control? Forget the “or”:** Closed loop pump innovations to capitalize on the transformation of electrification in travel drives.
- **Shift the Limit:** New product releases providing enhanced speed, power, and efficiencies for the future of mobile machinery.
- **Don't let the sky be the limit!:** From service to engineering development, IoT and Telematics provides incredible enhancements in Mobile Machinery.
- **Never let it get too close:** Advances in sensing technology provides for innovations in Mobile Machinery in the areas of automation and safety.
- **Get Electrified!:** New product innovations for the future of electrified mobile machines. eLION brings the future now.

**Cocktails & Dinner with Keynote | 6:00 pm–10:00 pm**

#### Thursday, May 12 – Overview

##### Conference | 8:30 am –12:00 pm

- **Transforming Mobile Machines:** Electrification, Electronification, Automation, and Architecture of Mobile Machines.
- **Change the way it is:** Electronified Open Circuit architecture brings a new level of standardization and limitless control solutions
- **Your Machine the most versatile actor:** Combining architectures with any input power type creates the flexibility of implement control we've all been looking for.
- **Gearing Up your Application:** Whether it be a hydraulic or electrified solution, gear drives and drive train solutions in a modular format are critical.
- **Better together. Faster to Market:** Getting your machine to market fast with collaborative software development & tools.

**Lunch | 12:00 pm**
