1 Accessing the Cart

1.1 Accessing the Shopping Cart

All products added during the session are stored in the cart to facilitate access to further information regarding prices and dates, as well as to initiate an order or request.

The cart can always be accessed by selecting the cart icon located at the top of every webpage and within most applications (e.g., configurators).

1.2 Cart Status Indicator

A red dot on the cart icon indicates the presence of at least one product in the cart.

1.3 Short Summary of the Shopping Cart

A brief summary of the cart, including product names and quantities, is displayed on the Rexroth Store homepage. This summary can also be used to access the complete cart. The quantity of items within the cart can be adjusted and saved by selecting "UPDATE".

The screenshot shows the Rexroth Store homepage with a sidebar on the left containing a navigation menu with categories like Hydraulics, Gearboxes, Automation, Linear Motion Technology, Assembly Technology, Academy, Tightening technology, Mobile robotics, Mobile Electronics and Telematics, and Resistance welding. The main content area features 'My Wishlists' and 'Spotlight Products'. On the right, a 'QUICK ADD PRODUCTS' sidebar is visible, containing a 'My Cart' summary. The 'My Cart' summary is highlighted with a red box and shows the following details:

Product	Quantity
ROLLER GUIDE RAIL CARBON STEEL RS...	1

Total QTY: 1 ITEM(S)

2 Cart View

2.1 Without Prior Login

In the shopping cart there is **the possibility** before logging in

- (1) delete all products in the cart,
- (2) delete individual products in the cart,
- (3) to navigate to the product pages (if available),
- (4) adjust the quantities,
- (5) start the login,
- (6) update the cart (only necessary after a change in quantity),
- (7) or return to the Rexroth Store.

(1)  DELETE CART  CREATE WISHLIST

Product	QTY	List price

 REQUEST FOR QUOTE  CREATE WISHLIST  UPDATE (6)  LOGIN (5)

[< BACK TO REXROTH STORE \(7\)](#)

Creation of a Wishlist or quote request is only possible after successful login. To proceed, selecting the "CREATE WISHLIST" or "REQUEST FOR QUOTE" tab will redirect the user to the store's login page.

2.2 After Successful Login

After login, additional options are unlocked, depending on the user's authorization level.

- (8) selecting a price partner (Full User only, if applicable)
- (9) possibility of quick entry or upload of a file (only for Full User)
- (10) selecting the desired shipping or delivery date (depending on agreement with Bosch Rexroth)
- (11) selecting the desired shipping or delivery date (subject to agreement with Bosch Rexroth) for individual products in the cart
- (12) start cart simulation (Full User only, Guests may request a quote)

REQUEST FOR QUOTE CREATE WISHLIST (12) CALCULATE CART PROCEED TO CHECKOUT

Please note that if products are added to the cart before logging in, and a login is then performed, the existing cart from the previous session will be overwritten.

2.3 After Performing Cart Simulation

Only **after simulating** the cart will...

- (13) item prices (Full User only),
- (14) the total amount of all items in the order (Full User only) and
- (15) shipping and delivery information (Full User only, depending on Bosch Rexroth agreement) and
- (16) the options for a quote request or
- (17) order functionality (enabled only for Full User with purchase authorization)

My shopping cart

The screenshot shows the 'My shopping cart' page. At the top, there are buttons for 'DELETE CART', 'CREATE WISHLIST', and 'QUICK ADD PRODUCTS'. Below this is a 'REQUESTED SHIPPING DATE' field set to '17.06.2025' with a calendar icon and a note 'Changes all items in the cart'. The main cart table has columns for 'Product', 'Shipping Date', 'QTY', and 'Net price'. A single item is listed: 'R901278770 DIRECTIONAL SPOOL VALVE 3WE10A5X/EG24N9K4/M' with a quantity of 1 and a shipping date of 17.06.2025. A note below the item states 'Date will be provided with order confirmation.' At the bottom of the cart, there is a summary section with 'TOTAL ITEMS', 'TAX', and 'TOTAL AMOUNT'. Below the cart are buttons for 'REQUEST FOR QUOTE', 'CREATE WISHLIST', 'CALCULATE CART', and 'PROCEED TO CHECKOUT'. Annotations in green numbers (13-17) point to specific elements: (13) points to the unit price, (14) points to the total amount, (15) points to the shipping date, (16) points to the 'REQUEST FOR QUOTE' button, and (17) points to the 'PROCEED TO CHECKOUT' button. A blue arrow points from the 'EXPAND ALL' button to a text box that says 'You can use the arrow to list the costs in even more detail.'

Changes to the cart may require a re-simulation before all information is displayed and subsequent steps can be initiated.

The prices at the item level represent customer-specific net prices negotiated with the customer's company. These prices already include any applicable discounts or deductions. The display of the material surcharge may vary slightly depending on the country. If further price components apply to the entire order, these surcharges (e.g., handling surcharge) are reflected in the subtotal. Packaging and transport costs or taxes, if applicable and known in advance, are calculated during the checkout process.

The simulation guide provides further details on the simulation process, including its prerequisites and potential outcomes. Learning nuggets are also available, covering topics such as the price partner function, delivery and shipping dates, quick entry, and uploading files.

In Germany, the cart may be **split after simulation** if the selected products require separate orders or inquiries. This split occurs automatically. Upon completion of the order or inquiry process, **separate orders or inquiries** will be submitted to Bosch Rexroth. Please note that subtotals are displayed per order, and a combined total for all orders is not provided. The following example illustrates this process.

3 Item Settings and Quantity in the Cart

If the same material number is added to the cart multiple times, this will create separate line items for the same product. This allows specifying different desired dates or configurations for the same material number. To order a larger quantity of the same product with the same desired date, adjust the quantity of the existing line item.
