

Product comparison

Product	Load rating	Rigidity	Self-supporting construction	Position measuring function	Clamping and braking units	Applications
Ball rail systems	++	++		optional	optional	Automation, Handling, Machine tool, Measuring machine
Roller rail systems	+++	+++		optional	optional	Machine tool, Measuring machine
Miniature ball rail systems	+	+				Microelectronics, Medical technology, Optical industry
Cam roller guides	-	-				Applications with high speed $\leq 10\text{m/s}$
Linear bushing and shafts	+	+	self-supporting, degree of freedom in peripheral direction			Automation, Handling, Medical technology, Food industry
