

CHOOSE 3.2

Compact Hydraulics Configuration Tool

CHOOSE 3.2 (v. 3.2.0100) is now available for download.

Sources: www.boschrexroth.com/choose

License and project management in 3.2:

1. **License management**
CHOOSE 3.2 will work with 3.1 license as well.
Key not working anymore?
Request your CHOOSE 3.2 key on www.boschrexroth.com/choose
2. **Project management**
all CHOOSE 3.2 projects can only be opened with current release.
The current release, however, will open all older projects.
What to do? Make sure to refresh your older projects by replacing them with updated components if available and save them with version 3.2.

Product line changes in 3.2

1. **Datasheet/Configuration**
Datasheet and configuration options synchronized to available catalog products (MAY 21)
2. **CDV/PcVP**
EDG product line now available, implementation of #5 datasheets
TEG-13, TEG-16, EDG-DP, EDG-DO, TCG, (adaptor flange EDG-ED).
3. **RM**
RM product line now available, implementation of RM-10 and RM-15 datasheets, M4 product line improvement.
4. **HIC**
New products available (e.g. DRE family).
5. **North America specific**
Custom libraries for NA.
Availability check on selected products and color code implementation (e.g. RE18301-16, ED4-P1).
