

AREA MAP & EXHIBITION PROFILE

Technology Sectors by Hall

Sheet metal, semi-finished and finished products (ferrous/non-ferrous)											17			
Handling technology											17		27	
Separation technology	11	12	13	14	15	16								
Forming technology													27	
Flexible sheet metal working technology	11	12	13	14	15	16								
Tube/section working	11			14	15									
Processing of sheet metal / plastic hybrid structures											17		27	
Machine elements and components	11	12	13	14	15	16								
Joining and fastening technology													26	
Surface technology													26	
Tool technology for sheet metal / plate working											17	26	27	
Process control and quality assurance	11	12	13	14	15	16								
Data processing (hard- and software)	11	12	13	14	15	16	17	26	27					
Factory and warehouse equipment, safety at work, environment protection	11	12	13	14	15	16	17	26						
Services, information and communication	11	12									17	26	27
